

S & G GROUP INDIA

DATED 04/09/2019

This is to inform you that S & G GROUP INDIA is a private Funded organization through csr , local funding as well from service and operations of s & g group India, Established by certain human loving philanthropists currently benefitting underprivileged children & women directly through welfare projects through initiatives in education, healthcare, livelihood, women empowerment, and advocacy across states of India.

To expand our work and organization, we are investing in certain states and also invited certain applications from candidates, for which we have also charged a nominal application fee which is to be required for organizing exam.

No security amount has been taken or confirmation has been given for job with that application fee.

We have received complaints from market that we have taken fee for confirmation of job, which is truly baseless, null and void. We completely deny that.

Also presently we are facing economic crisis and financial crunch due to non-availability of funds, due to which we have to keep our Delhi, Mumbai and Bangalore office un operational till next official notification, some of our good team mates like V.N. VOHRA, GAUTAM SHETTY has also left due to this financial crunch.

For general information it is informed that our Delhi address which was d- block, 2 ND floor, behind cgo complex, New Delhi will also be remained un- operational and all major work will be done through our registered office in Faridabad district, Haryana till next official notification.

We are working very hard to revive soon and in touch with certain big companies and organizations for funding, as well all informed vacancies will be completed till end of year 2020.

Thanks for being part of our group.

THANKS
